E

HOME HAIR COLOUR KIT
GREY COVERAGE

1. Simply mix both your colour and developer together in your bowl with your whisk. Place the towel around your neck, tucking it into your shirt to prevent stains.

2. Section your hair down the middle and then ear to ear.

3. Start from the your part line, taking 1-2cm gaps in between each new section, working horizontally down the head.

4. Apply a liberal amount of colour to completely saturate the roots.

5. Once colour is completely applied leave it to develop for 35 minutes, or 45 minutes for coarse and resistant hair.

6. Once your time is up shampoo and condition your hair, then finish off with a blow dry to see your fresh colour result.

HOME HAIR COLOUR KIT
ROOT SHADOW AND GLOSS

1. Start with your roots first. Simply mix both your roots colour and developer together in your bowl with your whisk and place the towel around your neck, tucking it into your shirt to prevent stains.

2. Section your hair down the middle and then ear to ear.

3. Start from the top of your part line, taking the colour just past your regrowth line.

4. Apply an even amount of colour to completely saturate your root and cover the top of the old foils.

5. Once colour is completely applied lightly brush through to blend and leave it to develop for 10 minutes.

6. Rinse your bowl, tint brush and whisk ready for your ends colour. Mix both your ends colour and developer together in your bowl with your whisk.

7. Apply an even amount of colour, starting from the edge of your roots colour to completely saturate ends. Brush through for an even distribution and leave it to develop for 15 minutes.

6. Once your time is up shampoo and condition your hair, then finish off with a blow dry to see your fresh colour result.
